Elton Trueblood's classic blueprint to rekindle the original flames of fervor that so characterized Christianity's first years. Inspirational, yet completely in touch with the practical concerns of Christians, The Incendiary Fellowship argues that the church cannot be located in buildings but in people bold in commitment to their faith. Only Christianity can meet humanity's basic needs and spiritual hunger, but it must be a faith that is strong and assured of its value. This is the book that shows how the average Christian can join in this vital task. The Incendiary Fellowship can cast both God's light and the heat of his love across a world shivering in cold and lonely darkness.

One of the greatest interpreters of the Christian faith, Elton Trueblood has written over thirty books, including The Company of the Committed and The Humor of Christ. Dr. Trueblood lectures widely and is Professor-at-Large at Earlham College, Richmond, Indiana.
